Regards,

Name / Last name:

Company:

INSTRUCTIONS FOR THE PAYMENT WITH CREDIT CARD WITH PREVIOUS AUTHORIZATION OF THE CARD HOLDER

This modality is an additional alternative for the payment of invoices for registration or renewal of domain names. The authorization is sent, only once, to NIC.EC to charge to the credit card so that every time you want to pay, you send a communication to NIC.EC detailing the domain names or the invoices that you want to pay charging to the credit card that was declared. The initial authorization is not an open authorization so that to discretion of NIC.EC charges are made. The customer authorizes the specific charges. The initial authorization could be cancelled in any moment by the cardholder.

DOCUMENTS FOR THE INITIAL AUTHORIZATION (ONLY ONCE)

1. Form for Authorization of payments with credit card
2. Copy of the identification document with photo, preferably passport
3. Copy of the credit card by both sides of the plastic

These documents must be sent to NIC.EC by fax or mail to the office.

SPECIFIC AUTHORIZATION OF PAYMENT

By fax or email, the Administrative Contact have to send a communication to NIC.EC authorizing the payment of the domain names or invoices that are detailed "charging to the credit card previously declared and that is archived in NIC.EC files."

AVAILABLE CREDIT CARDS

Only with MasterCard
