REQUIREMENTS TO BECOME REGISTRAR AGENTS

- 1) Legal entities interested in becoming NIC.ec Registrar Agents must upload the following information in the corresponding form:

Companies

- Tax registration certificate
- Copy of the legal representative's identification document (both sides)
- Appointment of the legal representative
- Company incorporation document
- Bank certificate

- 2) To be considered a Registrar Agent and to be part of the .ec domain commercialization network, the following technical requirements must be met:

- Have a website consisting of: an attractive design with good UI/UX, responsive design, SSL certificate, provide email addresses and mobile phone numbers for technical support and abuse, electronic invoicing capability, accept different online payment methods: credit cards or bank transfers if located in Ecuador.
- The website server must have a dedicated public IP. (Exclusive IP)
- Have a platform that allows the end customer to manage and administer domains; this platform must include EPP integration via port 700.
- Have a fixed IP connection at the company's office in order to access the domain management system via GUI.
- Each GUI user must have an Android or iPhone smart mobile device to activate 2FA.
- Mandatory email-based expiration alert notification system and any additional system if available.

- 3) To be considered a Registrar Agent and to be part of the .ec domain commercialization network, the following economic requirements must be met:

- Payment of a non-refundable initial fee of two thousand US dollars, and a consumable economic fund of USD \$1,000.00. This fund is paid once at the beginning and will be consumable at a price of per domain, which may vary in case NIC.ec grants special promotions in favor of the Registrar.

 www.nic.ec

- The Registrar Agent must maintain in its fund the minimum amount that allows the renewal of the domain names under its management and make a minimum recharge of three hundred US dollars.
- The Registrar Agent will benefit from price reductions starting from the registration of five thousand one domain names; the NIC.ec system will automatically adjust domain prices according to the following price table:

Active Domains	Price
5.001 a 6.000	\$
6.001 a 7.000	\$
7.001 a 8.000	\$
8.001 a 9.000	\$
9.001 a 10.000	\$
20.000 en adelante	\$

Once the requirements mentioned above are accepted, the information will be validated by NIC.ec.

Once the submitted information has been verified through an internal audit and if the candidate is suitable to qualify as a NIC.ec Registrar Agent, NIC.ec will confirm acceptance via email. The registrar agent must then send the deposit receipt for the initial fund, and NIC.ec will provide the contract for the corresponding signatures. Once completed, the technical integration process will begin on the testing platform to validate the EPP integration, which consists of:

- EPP connection test
- New domain registration tests
- Domain renewal tests
- Domain integration test
- Reversal tests (registration)
- Reversal tests (renewals)
- Domain transfer tests
- WHOIS data modification tests
- Additional tests if required
